

City of Meadow Lake

Conditions to be complied with when conducting a controlled burn within City limits

1. **Obtain a Burning Permit from the Fire Department prior to burning.** Observe the expiry date on the Permit
2. Burn only clean-burning fuels such as dry wood and grass. **DO NOT** burn synthetics, rubber, or any hazardous material. Verify that no material containing asbestos is burned
3. Material to be burned should be piled at least 100 feet away from buildings, vehicles and property lines
4. Burn only when weather conditions are suitable:
 - low wind
 - wind direction is not toward houses or roadways
5. Ensure that no fire ban is in effect
6. Call the Provincial Dispatch centre before burning: 1-866-404-4911. Advise them of the control burn, including address or land location and your phone numbers
7. Attend fire at all times until it is out.
 - have sufficient water and shovels on hand to control the fire
 - extinguish the fire if winds pick up, become gusty, or change directions so that smoke is blowing toward residences or roadways
 - do not leave smouldering fires unattended
8. Clean up the remaining debris completely

All Burning Permits are Void when a fire ban is in effect
